Re: Per our conversation, please print it in its entirety in the next issue.

Cornwall needs an Ice-skating / Roller rink!

The Dragon JV team won the County Championship last year, they might not skate this season, there isn't any ice available! Cornwall needs a rink!

What about roller hockey; How many more children would be involved in the activity, if they didn't have to travel to practice? Cornwall needs a rink!

A rink would be good for Cornwall businesses and improve the quality of life for countless children, and be enjoyed for generations to come. Sports are good for kids. . and so is recreational skating . . you know, where you just skate around because its fun.

The Cornwall rink can be used for roller hockey in the warm months, and ice hockey in the winter, and recreational use all year long. How does Cornwall get a rink without paying more taxes? No-one wants to pay more taxes.

This is a "call to arms". Your support is desperately needed to help with fund raising, to organize the children, to work with city hall, to help plan and support the Cornwall Rink. Please volunteer today !
